SENATE RESOLUTION

REQUESTING THE BOARD OF PSYCHOLOGY TO CREATE A FIVE-YEAR PILOT PROGRAM TO ALLOW CLINICAL PSYCHOLOGISTS LICENSED PURSUANT TO CHAPTER 465, HAWAII REVISED STATUTES, TO PRESCRIBE PSYCHOTROPIC MEDICATIONS ONLY TO PATIENTS TREATED BY THE PSYCHOLOGIST AT A FEDERALLY QUALIFIED HEALTH CENTER.

1 WHEREAS, the Health Resources and Services Administration
2 of the United States Department of Health and Human Services has
3 officially designated much of the State, including isolated
4 rural locations and urban areas with high population densities,
5 as a mental health professional shortage area, highlighting the
6 critical need for expansion of available mental health services
7 and development of a corps of mental health professionals to
8 serve the currently unmet needs of Hawaii's population; and
9

10 WHEREAS, delivery of comprehensive, accessible, and
11 affordable mental health care has been demonstrably enhanced by
12 collaborative practice among licensed clinical psychologists
13 with prescriptive authority and medical doctors in federal
14 facilities and programs, as well as states that have authorized
15 prescriptive authority for psychologists; and
16

17 WHEREAS, providing limited prescriptive authority to
18 qualified, licensed clinical psychologists, subject to
19 supervision by a licensed medical doctor, will make
20 comprehensive mental health care more accessible to medically
21 underserved residents of the State; and
22

23 WHEREAS, since 2000, psychologists in Hawaii have received
24 psychopharmacological training through the Tripler Army Medical
25 Center psychology training program and have actively
26 collaborated with primary care physicians to provide combined
27 therapy and psychopharmacological care to a medically
28 underserved patient population at eleven federally qualified
29 health centers: Bay Clinic, Hana, Molokai, Kauai, Waianae,
30 Kalihi-Palama, Waimanalo, Koolauloa, West Hawaii, Kokua Kalihi
31 Valley, and Waikiki, as well as a native Hawaiian health care
32 system clinic located in a federally designated medically
33 underserved area on Molokai; and

1
2 WHEREAS, the American Psychological Association has
3 developed a model curriculum for a master's degree in
4 psychopharmacology for the education and training of prescribing
5 psychologists, which is currently available within the State at
6 Argosy University and the University of Hawaii at Hilo's College
7 of Pharmacy; and
8

9 WHEREAS, independent evaluations of the United States
10 Department of Defense psychopharmacological demonstration
11 project by the United States General Accounting Office, now
12 known as the Government Accountability Office, and the American
13 College of Neuropsychopharmacology, as well as the experiences
14 of Idaho, Illinois, Iowa, Louisiana, and New Mexico, have
15 demonstrated that appropriately trained clinical psychologists
16 can prescribe psychotropic medications safely and effectively;
17 now, therefore,
18

19 BE IT RESOLVED by the Senate of the Thirtieth Legislature
20 of the State of Hawaii, Regular Session of 2019, that the Board
21 of Psychology (Board) is requested to create a five-year pilot
22 program to allow clinical psychologists licensed pursuant to
23 chapter 465, Hawaii Revised Statutes, to prescribe psychotropic
24 medications only to patients treated by the psychologist at a
25 federally qualified health center; and
26

27 BE IT FURTHER RESOLVED that the pilot project is requested
28 to allow a licensed clinical psychologist to be eligible to
29 apply to participate in the pilot program if the psychologist:
30

- 31 (1) Meets the requirements for licensure set forth in
32 section 465-7, Hawaii Revised Statutes;
33
- 34 (2) Completed specialized education and training in
35 preparation for prescriptive practice approved by the
36 American Psychological Association and the Board;
37
- 38 (3) Passed the Psychopharmacological Examination for
39 Psychologists or an equivalent national examination
40 relevant to establishing competence for prescriptive
41 practice approved by the Board;
42

(4) Is employed by, including as a contract provider, a federally qualified health center in this State; and

(5) Meets any other requirements established by the Board; and

BE IT FURTHER RESOLVED that the five-year pilot program is requested to allow participating psychologists to prescribe psychotropic medications under the supervision of a licensed physician as follows:

(1) In the first two years, participating psychologists shall practice only at Waianae Coast Comprehensive Health Center and shall receive training and be directly supervised by a physician at that location;

(2) After the first year of the pilot program, the supervising physician at Waianae Coast Comprehensive Health Center shall continue to train and supervise participating psychologists and may recruit additional physicians at other federally qualified health centers in the State to train and supervise participating psychologists at those locations;

(3) Participating psychologists shall be directly supervised by supervising physicians at a federally qualified health center for the first two years of the psychologists' participation in the pilot program; and

(4) After completing two years of direct supervision, participating psychologists shall maintain a collaborative and collegial relationship with a supervising physician and with the medical doctors who oversee the general medical care of the participating psychologist's patients at a federally qualified health center and shall exercise prescriptive authority only for patients treated by the psychologist at the federally qualified health center; and

BE IT FURTHER RESOLVED that at the end of the fourth year of the pilot program, the Board is requested to prepare a

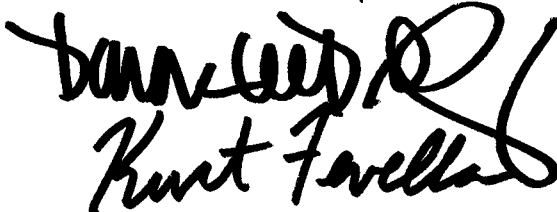

1 report, under the direction of the supervising physicians of the
2 pilot program and with input from participating psychologists
3 and the physicians and administrators of participating federally
4 qualified health centers, to be submitted to the Legislature no
5 later than twenty days prior to the convening of the Regular
6 Session of 2025 that includes:

- 7
8 (1) The number and type of patients served by
9 participating psychologists;
10
11 (2) Treatment services outcomes of patients treated by
12 participating psychologists;
13
14 (3) Whether and how the pilot program improved access to
15 mental health care; and
16
17 (4) Patient satisfaction with mental health care provided
18 by participating psychologists; and
19

20 BE IT FURTHER RESOLVED that certified copies of this
21 Resolution be transmitted to the Director of Commerce and
22 Consumer Affairs, Division Administrator of the Professional and
23 Vocational Licensing Division of the Department of Commerce and
24 Consumer Affairs, and Chair of the Board of Psychology.
